

PROFILE

Nuke compositor from Sweden with extensive experience from feature films, independent films, short films as well as TV commercials and over 3 years driving Nuke. I'm a good communicator and a fast learner with attention and good eye for detail and colors. I handle stress well and I plan and organize my work for a good balance between perfection and speed.

SKILLS

In addition to traditional compositing tasks, my strong side is with 3D and 2D solutions inside of Nukes 3D space or outside (creating projection geo in Maya or texturing projection geo in Mari). I'm proficient in Nuke, creating fast, efficient and organized scripts to speed up my workflow. Can work in additional software to solve challenging tasks.
